

Do you know that RETIGO Vision combi steamers are one of **the most economical machines** in the market? You do not believe? But we have clear evidence!

The Hungarian magazine Vendéglátás organized quite an interesting event which took place in June 2010 in Budapest. The mission was the to compare independently combi steamers of various brands. The committee evaluated speed, power and water consumption. There were five market leaders taking part in the "Contest free of prize". All of them were required to cook with the same basic stuff and use machines of the 611 size. We are proud to say that our product did very well and we submit a proof here so that you can make your own idea:

	Electricity consumption (kW)	Water consumption (l)	Time (min.)	Weight difference %
Croissant (25g/108 pcs)				
RETIGO	1,7	1	12	-
Rational	2,8	16	24	-
Convothem	2	16	21	-
Lainox	1,9	7	21	-
Electrolux	2,3	0,5	28	-
Grilled chicken (1,5kg/8 pcs) Pommes Frites (2,5 kg)				
RETIGO	4,4	4	55	22,94
Rational	5,5	16	51	23,78
Convothem	5,3	79	50	26,72
Lainox	4,4	33	52	24,83
Electrolux	6	53,5	54	29,36
Pork loin (8 kg)				
RETIGO	1,7	0,5	19	10,84
Rational	1,5	1,5	22	16,52
Convothem	2,2	14	23	14,58
Lainox	1,9	0,5	25	12,32
Electrolux	2,3	2	27	12,14
Broccoli (1 kg)				
RETIGO	0,4	2	4	-
Rational	0,6	6	6	-
Convothem	0,4	4,5	7	-
Lainox	1,2	5	13	-
Electrolux	1	5	11	-
Active cleaning				Clean
RETIGO	1,7	20	35	95 %
Rational	1,7	60	46	90 %
Convothem	1,8	45	55	80 %
Lainox	2,5	50	30	85 %
Electrolux	2,4	50	55	95 %

There can be seen in the chart that RETIGO Vision combi steamers have on average **25% less electricity consumption** than all the other steamers included in the comparison. And what is very interesting too is that RETIGO Vision has about **78% lower water consumption overall**. As you can see, the results of the automatic washing Active cleaning were excellent too.

So what? Still not believe?
